RU2 Fast-275/375 Radar Speed Display Signs

The RU2 Systems has your pole mount traffic calming needs covered with our Fast-275/375 pole mount radar speed display sign series. Faithfully modeled on the iconic R2-1 Speed Limit sign, these high intensity LED displays get the attention of oncoming drivers. The signs can be directly wired to your A/C electric service or optionally powered by a solar panel power system.

Each of these designs feature a full matrix high intensity LED display with either 12" or 18" characters. The 12" character is appropriate for slower speeds (35 MPH posted and lower) and is readable to 750 feet, the 18" above that or in visually "competitive" areas. In addition to the standard flashing digit Violator Alert, several additional Violator Alerts are available including an embedded "SLOW"/"SLOW DOWN" message and our flashing Red/Blue bars, particularly effective at night.
