Radar Speed Display Signs Manufacturing & Sales

RU2 Fast-275/360 E-Series Pole Mount Radar Speed Display Signs

RU2 System's new E-Series Pole Mount Speed Feedback Signs are the sign of choice for non-North American traffic calming applications. Faithfully modeled on the iconic round "Euro" Speed Limit sign, these high intensity LED displays get the attention of oncoming drivers regardless of the local language. The signs can be directly hard-wired to your electric service (90-240 VAC, 50-60 Hz) or optionally powered by solar array.

Each of these designs feature a full matrix high intensity LED display with either 30CM/12" or 45CM/18" characters. The 30CM character is appropriate for slower speeds (sub 55 KPH /35MPH) and is readable past 225M / 750 feet, the 45CM above that or in visually "competitive" areas. In addition to the standard flashing digit Violator Alert, several additional Violator Alerts are available including an embedded "SLOW"/"SLOW DOWN" message and our flashing Red/Blue bars, particularly effective at night.

Casework:

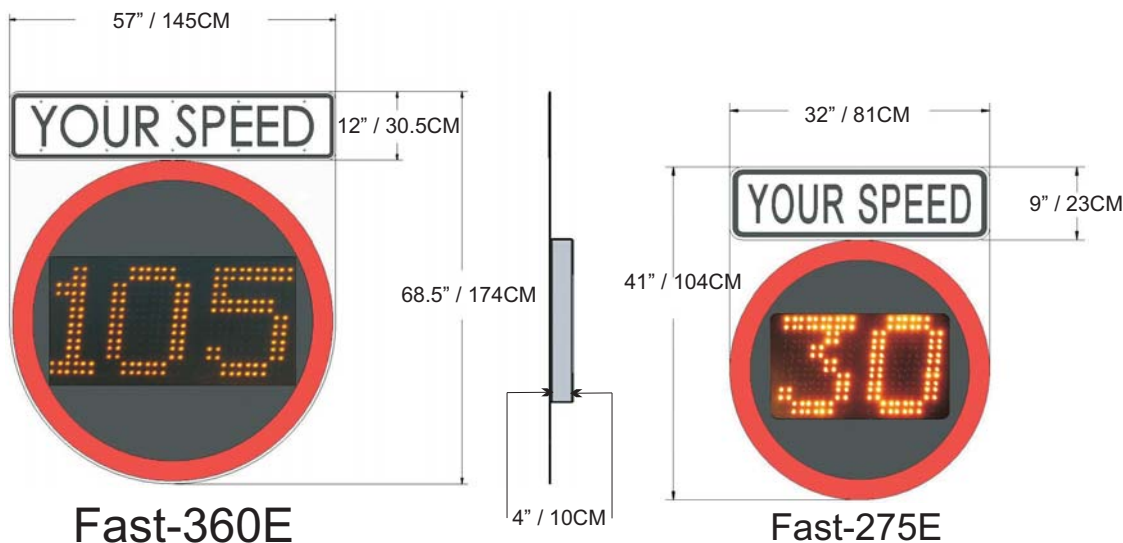

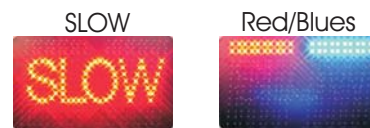

- 1/8" aluminum construction, powder coat finish inside and out, rear access panel to critical components
- All stainless steel hardware
- "YOUR SPEED" sign in any language, included
- GE Lexan® shielding with a smoked, non-glare finish for easy readability even in direct sunlight
- Universal 2 piece mounting brackets included; U-bolt, band or wall mount

Electronics:

- K-band single directional radar unit
- Latest generation AlInGaP high intensity LED's
- 30CM / 12" or 45CM / 18" Full Matrix (rounded) Characters for quick recognition
- Minimum Speed Display, High Speed Blanking & Flashing Digit Violator Alert - **Standard**
- Automatic intensity adjustment to ambient light conditions - **Standard**
- 12 VDC operation, 12 VDC or 100-240 VAC, 50/60 Hz input
- Power consumption: 5.76W Nominal, 14.88W Peak
- Keyed On/Off switch
- Single cycle ON/OFF clock - **Standard**
- Defaults to last settings upon power up

Options:

- Solar Panel, 50-230+W systems, with mounting bracket
- Various Timing Options are available and exist as NEMA compatible devices.
- Custom powder coat colors available
- Violator alerts*
 - ▶ "SLOW" / "SLOW DOWN"
 - ▶ Red-Blue Flashing Bars (Colors may be customized to local standards)

WARRANTY:

RU2 Systems warrants their LED Displays for Five Years. The Radar Gun is warranted for Two years. On-site labor is not included. However, parts are repaired within five business days of receipt, and include ground-shipping expenses. Warranty does not include physical damage from misuse or vandalism.
