Radars Speed Display Signs Manufacturing & Sales

## RU2 Fast 1000

### Radars Speed Display Trailer

The RU2 Fast 1000 Radar Speed Display Trailer is a heavy duty product ideal for use on highways and streets where speeding is a problem. The 18" tall full matrix characters are created with high intensity LED's which adjust their brightness to the ambient light conditions for maximum viewing day or night. The display is protected with GE Lexan<sup>®</sup> shielding and the trailer is powder coated top to bottom. All hardware is stainless steel, including theft deterrent screws for the speed limit and "Your Speed" signs.

Custom built with top quality, many optional features may be added, including data recording, electric leveling jacks and our violator alert lights. A solar panel is standard equipment for this model trailer.
