Radars Speed Display Signs Manufacturing & Sales

RU2 Fast-200

Portable Radar Speed Display

The RU2 Systems has your in-field traffic calming needs covered with our Fast-250 portable radar speed display signs. Placed on trunk, tail-gate, roof or even the ground, these high intensity LED displays get the attention of oncoming drivers. At 23 pounds this package is light enough to transport easily and heavy enough to stay put.

Each of these designs feature a full matrix high intensity LED display with 12" characters. The 12" character is appropriate for slower speeds (sub 35 MPH) and is readable to 750 feet. In addition to the standard flashing digit Violator Alert, several additional Violator Alerts are available including an embedded "SLOW" message and our flashing Red/Blue bars, particularly effective at night.
