Radar Speed Display Signs Manufacturing & Sales

RU2 Fast 525/550 Skid Mounted Radar Speed Displays

The RU2 Fast 550 Skid Mount Radar Speed Display features an 18" tall character display which stands over 7 feet tall, easily seen by oncoming drivers 1000' out.

Optional features include several violator alert systems, extended battery capacity and custom signage. Also available is our RU2 Systems Data Acquisition Package that records the time, date and speed on oncoming vehicles without the use of cumbersome pneumatic tubes placed across the street. The data system can also function in "stealth" mode. No speeds are displayed, so it appears the sign is off so normal traffic patterns can be recorded.
