Radar Speed Display Signs Manufacturing & Sales

RU2 Fast 600

Radar Speed Display Trailer

The RU2 Fast 600 Radar Speed Display Trailer was designed for small community streets where speeding is a problem. While it may be light weight, we built it to the same tough industrial standards as its bigger brothers. Easily towed with a passenger vehicle or even a golf cart, the trailer can be repositioned throughout a community streets for maximum effectiveness.

This trailer mounted radar display is accurate within one mile per hour, and easily read at a glance. The 12" high, full matrix LED characters can be seen from 750 feet to alert the driver of their speed. And optional violator alerts make your point perfectly clear to all.

RU2 Systems has the right signs and trailers to help you succeed with your traffic calming program!
