Radar Speed Display Signs Manufacturing & Sales

RU2 Fast 750 Radar Speed Display Trailer

The RU2 Fast 750 Radar Speed Display Trailer has a 12" LED display that stands 7 feet tall when raised into operating position. The display is raised and lowered with an electric actuator for an effortless setup. While this trailer is ideal for school zones and neighborhood streets it is equally suited for main arterials where speeding is a problem.

This sign typically runs seven to ten days before charging is necessary. Optional equipment includes the data acquisition package, solar panel, an alarm system and trailer cover.
