Radars Speed Display Signs Manufacturing & Sales

RU2 Fast 8000

Radars Speed Display Trailer

The RU2 Fast 8000 Radar Speed Display Trailer has a 18" tall character display and when in full operating position, stands 7 feet tall. The speed limit sign folds down creating a lower trailer profile for easy transport and storage. Standard features include settable cut off speed, settable flashing blocks, and caution arrows.

Optional features include our violator alert system (a flashing strip of red and blue LED's and/or the "SLOW DOWN" message in red LED's) when the approaching vehicle does not slow to the selected speed. Also available is our RU2 Systems Data Acquisition Package, which records the time, date and speed of oncoming vehicles without the use of cumbersome pneumatic tubes placed across the street!
