

RU2 Fast-400/450

RU2 Systems, Inc.

The Leader in Speed Display Technology

RU2 Fast-400/450 Over-Under Pole Mount Radar Speed Display Signs

The RU2 Fast 400 shown above is an over/under sign that has a changeable speed limit as well as the oncoming vehicle speed display. This 12" character sign is ideal for school zones, construction zones or residential streets where the speed limit changes on a regular basis. In addition, several Violator Alerts are available including an embedded "SLOW" message and our flashing Red/Blue bars, particularly effective at night.

The Fast-400's bigger brother, the Fast 450 is an over/under sign with 18" characters. The larger 18" character is appropriate for higher posted speeds (40 MPH+) and any longer line-of-sight locations where speeding is a problem. It too has several Violator Alerts available including an embedded "SLOW DOWN" message and our flashing Red/Blue bars.

No Confusion! No Excuses! No Debate!
